

Visit to Twickenham & Thames Valley Beekeepers Association
Twickenham Apiary, 41 Whitton Road, Twickenham TW1 1BH
(3 mins from Twickenham station)

Wednesday 31 May 2017 at 10.30 (and possibly 12.00)

A great opportunity to find out more about the life-cycle of a honey bee, their effects on the environment and importance, not just for honey! After a short introduction followed by a viewing of a dummy hive and handling of frames - no live bees involved, we'll be able to enter a nylon mesh hide in the Apiary while a beekeeper opens up a hive to bring out frames on which we hope to see nectar, pollen, honey, eggs and larva.

Children are welcome, they'll be able to try on veils while learning about our bees, a great way to occupy a morning during the half-term break.

Cost £5 adults, £1 children.

The Association is a registered charity run by volunteers. This is a minimum donation from the Society, you may wish to give more. Numbers are limited, if we have enough interest we will run another visit at 12.00 on the same day.

Please arrive at The Apiary at 10.15 for 10.30 start.

Bookings and cheques to Pamela McHutchon, Flat 3, 86 High Street, Teddington TW11 8JD.
